

CUSTOMER PRESENTATION · SEPTEMBER 2026

Find the public tenders you can win.

FORSA watches the official sources, reads the notices for you and tells you what fits — and why. Built for Mauritanian companies.

THE PROBLEM

Every year, winnable contracts slip away.

Scattered

National portal, donors,
United Nations...
hundreds of notices, often
scanned PDFs.

Too late

You find the tender a few
days before the deadline
— or never.

Rejected

A strong bid is excluded
for one missing or expired
certificate.

Gut feeling

You bid without knowing
whether the contract
really fits your capacity.

THE SOLUTION

FORSA does the watching, reading and organising. You keep the decision.

1

Detect

Every official notice and procurement plan, watched day and night.

2

Understand

Requirements, documents, deadlines and risks — quoted from the notice.

3

Decide

An explained fit score, and what you need to obtain to go for it.

4

Win

Bid workspace, tasks, reminders and approvals up to submission.

HOW IT WORKS

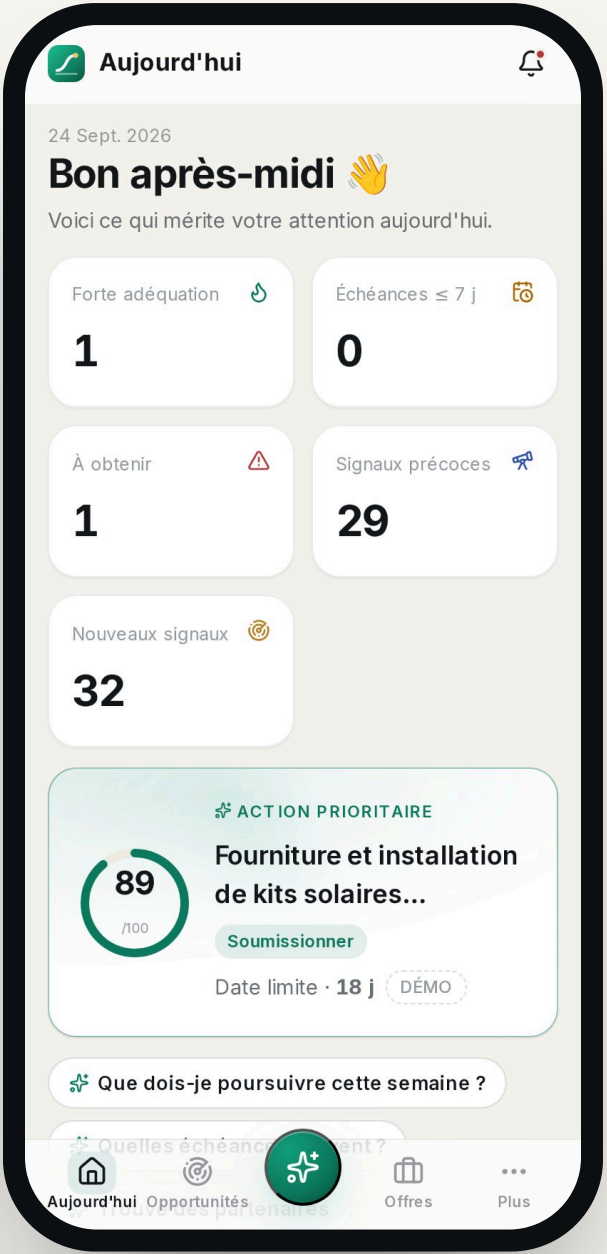

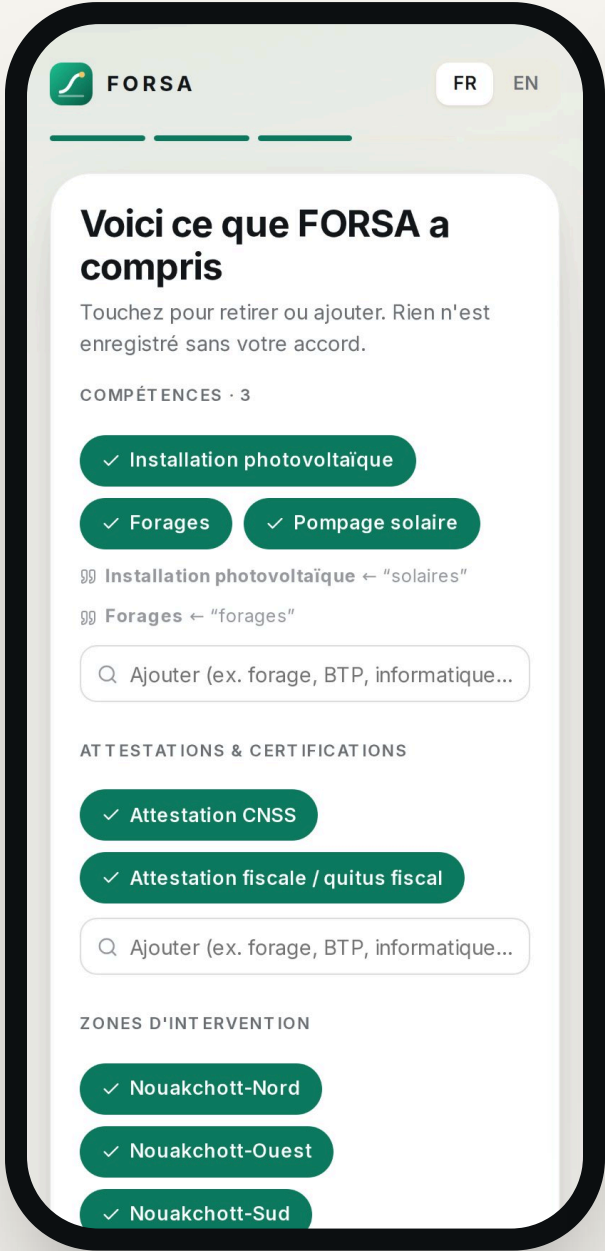

Up and running in a morning.

- Describe your company**

In 2 minutes, by voice or text, in French, Arabic or English. FORSA understands your trades; you confirm.
- FORSA watches for you**

National procurement portal, World Bank, United Nations... Even scanned notices are read.
- Get what fits you**

Every morning: high-fit opportunities, deadlines and documents to prepare — with the evidence.

ALREADY CONNECTED TO OFFICIAL SOURCES

Real data, not promises.

1,434

notices and procurement-plan
lines analysed

859

contract awards studied: who
wins what, at what price

345

public purchases announced in
procurement plans

90+

public buyers tracked

National Public Procurement Portal

ARMP notices, procurement plans and
red list — even scanned notices are
read.

World Bank

tenders and contract awards of
projects financed in Mauritania (CC
BY 4.0).

United Nations — UNGM

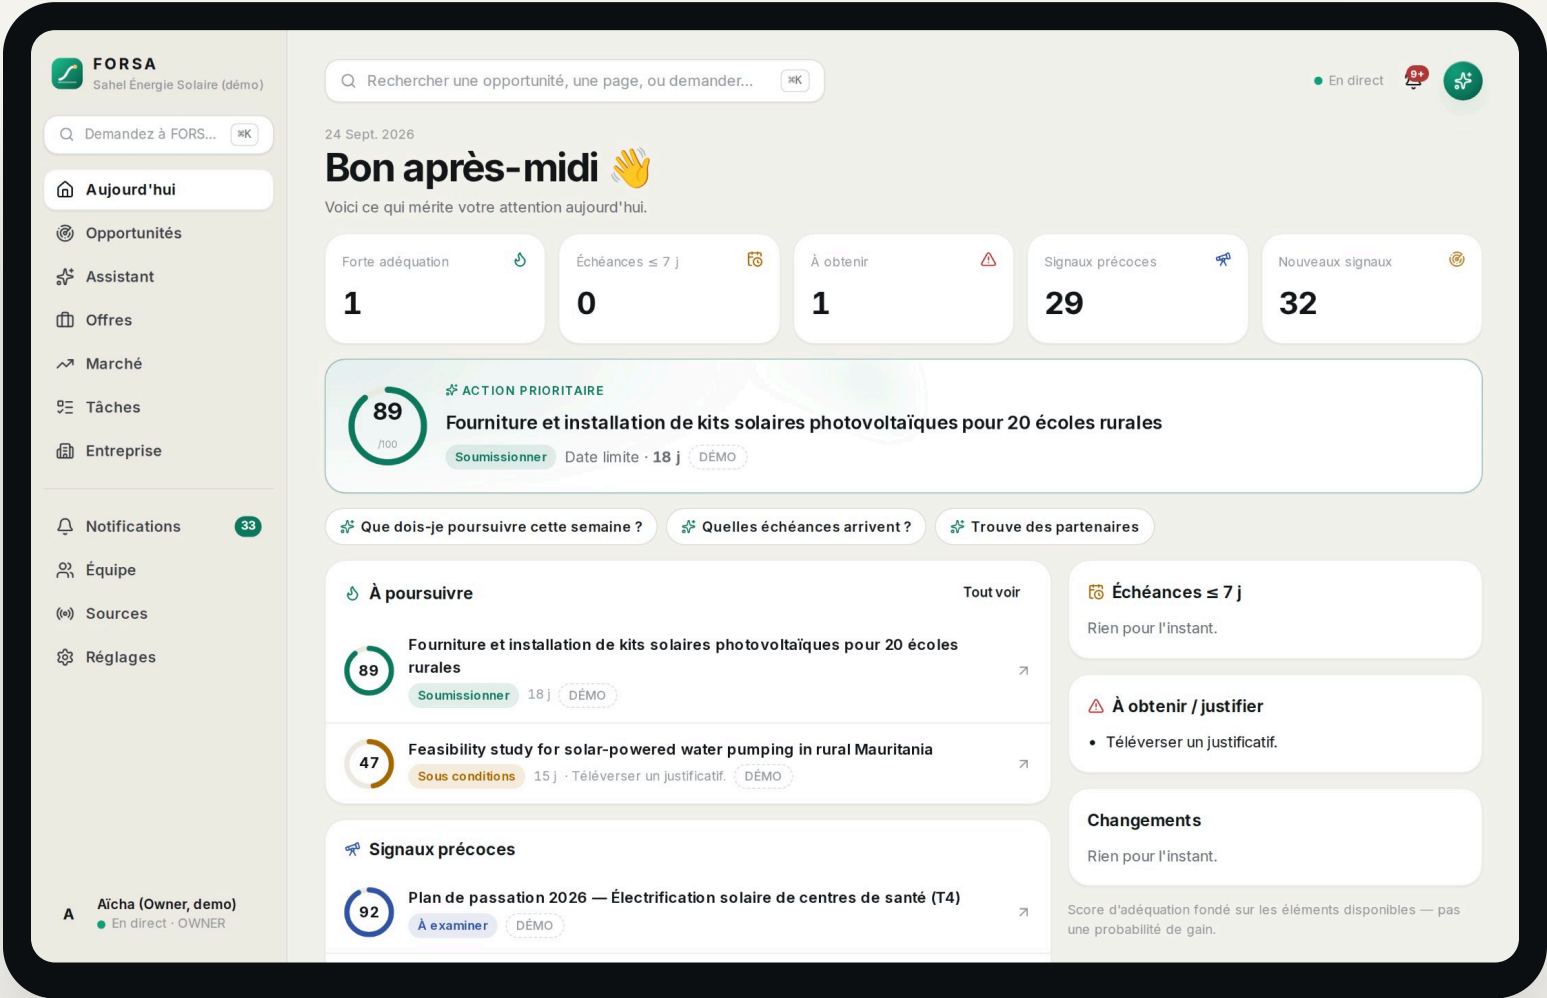

UN agencies' notices through the
official API (with accreditation).

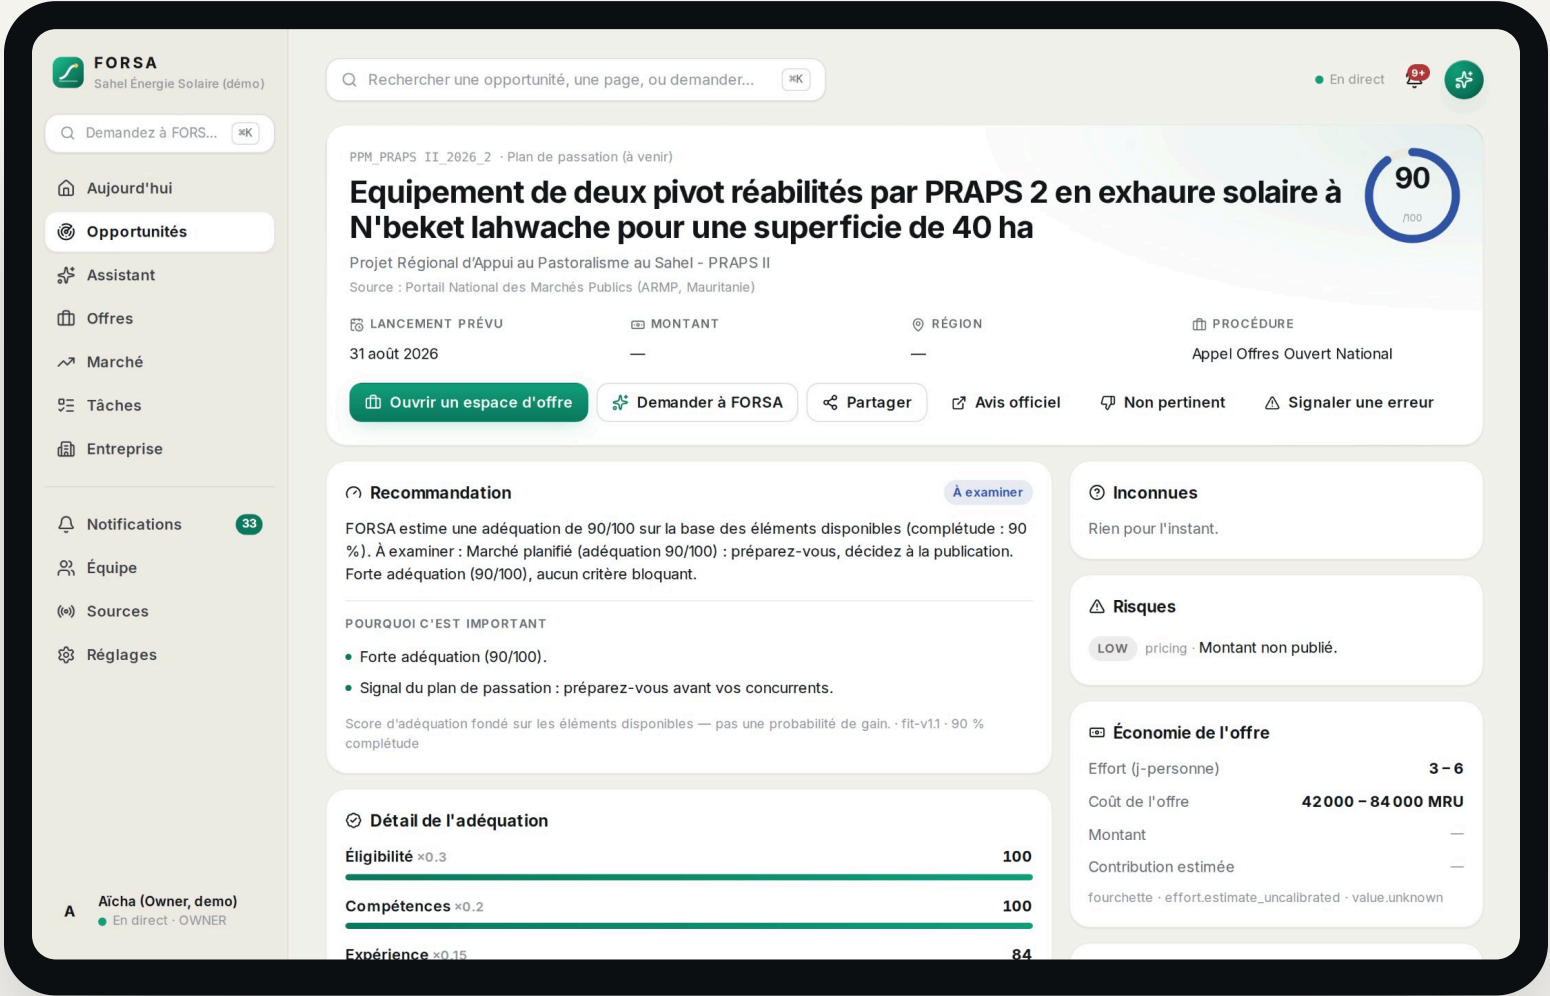

Figures as of 24 September 2026, read from the official sources.

EVERY MORNING

Your briefing: what deserves your attention today.

- Today's top action
- Deadlines within 7 days
- Documents to obtain before it is too late
- Early signals from procurement plans

Real example: a procurement-plan line published on the national portal.

TRANSPARENCY

Every recommendation is explained.

- Fit score — out of 100, from your capabilities and the notice's requirements — never presented as a win probability.
- The reasons — what works for you, what is missing, what is unknown.
- The evidence — every requirement is quoted from the official notice, with its page.
- Bid economics — effort, cost to respond and expected contribution, as ranges.

COMPETITIVE INTELLIGENCE

See who wins, who buys, what is coming.

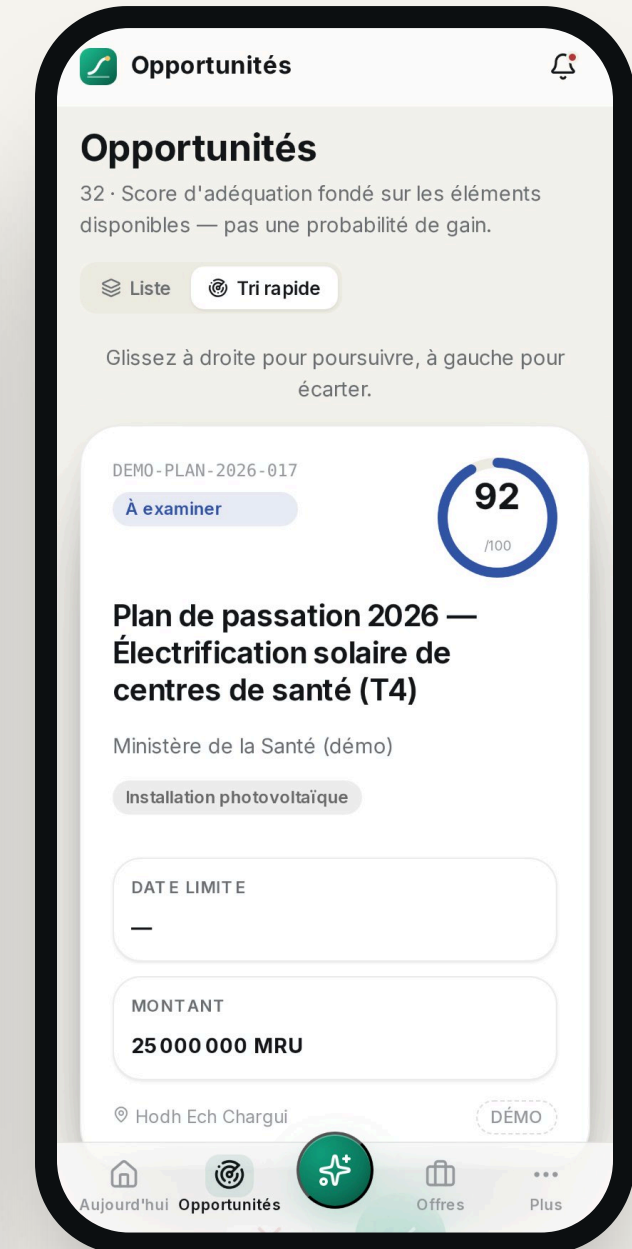

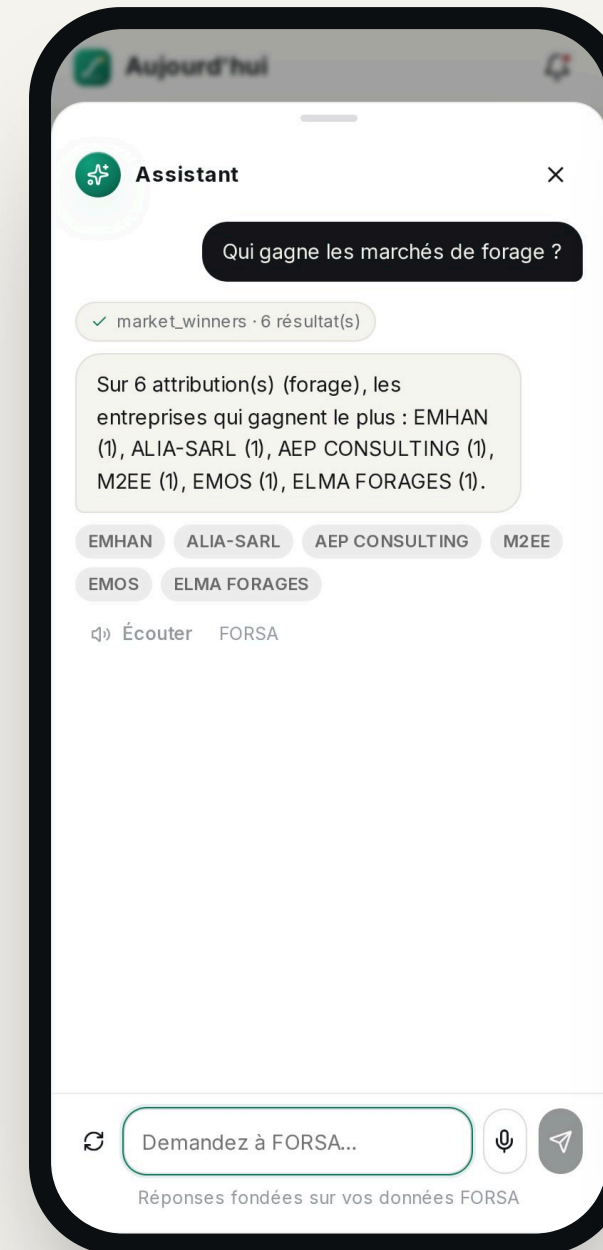

- Competitors — contracts won and lost, amounts, buyers served.
- Buyers — the most active administrations and projects in your sector.
- Pipeline — purchases planned in the next 12 months, before the tender is out.
- Red list — check in a second that a partner is not excluded from public procurement.

INTELLIGENT ASSISTANT

Ask your questions. By voice.

- "Who wins borehole contracts?" "Which deadlines are coming?"
- French, Arabic, English — typed or spoken
- Answers only from your data and the official sources
- Proposes actions you confirm: nothing happens without you

The whole team, in one place.

1

Bid workspace

bid / no-bid decision, recorded

2

Compliance matrix

every requirement, its status, its answer

3

Automatic tasks

conditions become assigned tasks

4

Four-eyes approval

no submission without human sign-off

5

Reminders D-7, D-3, D-1

instant notifications, on mobile too

6

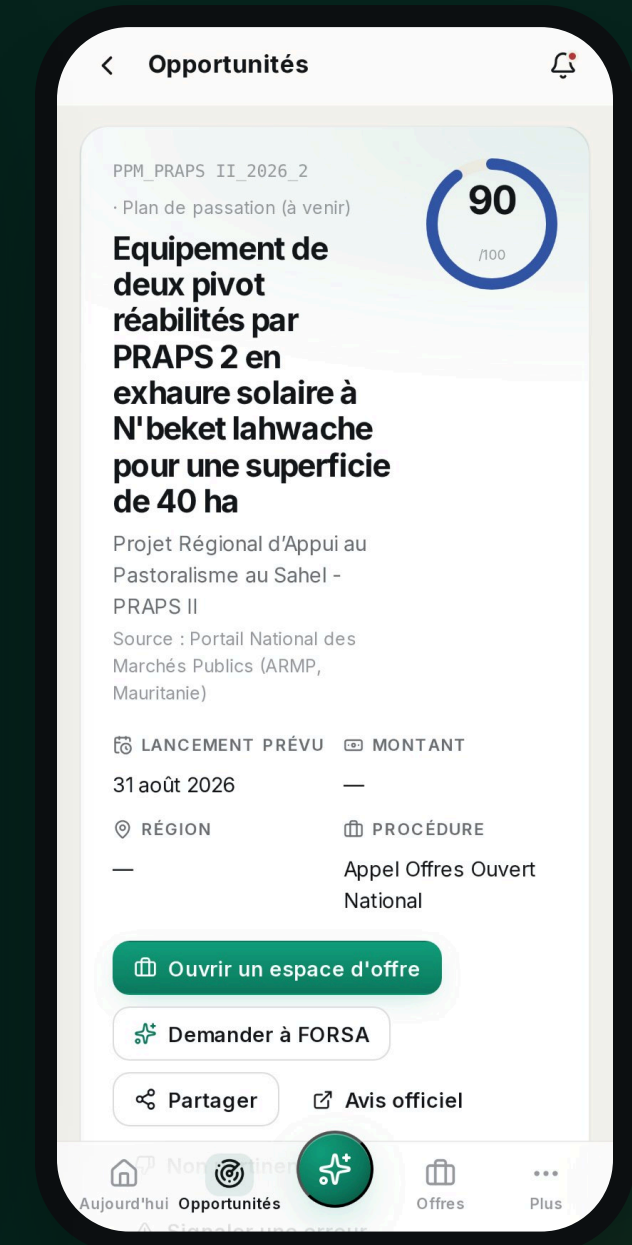

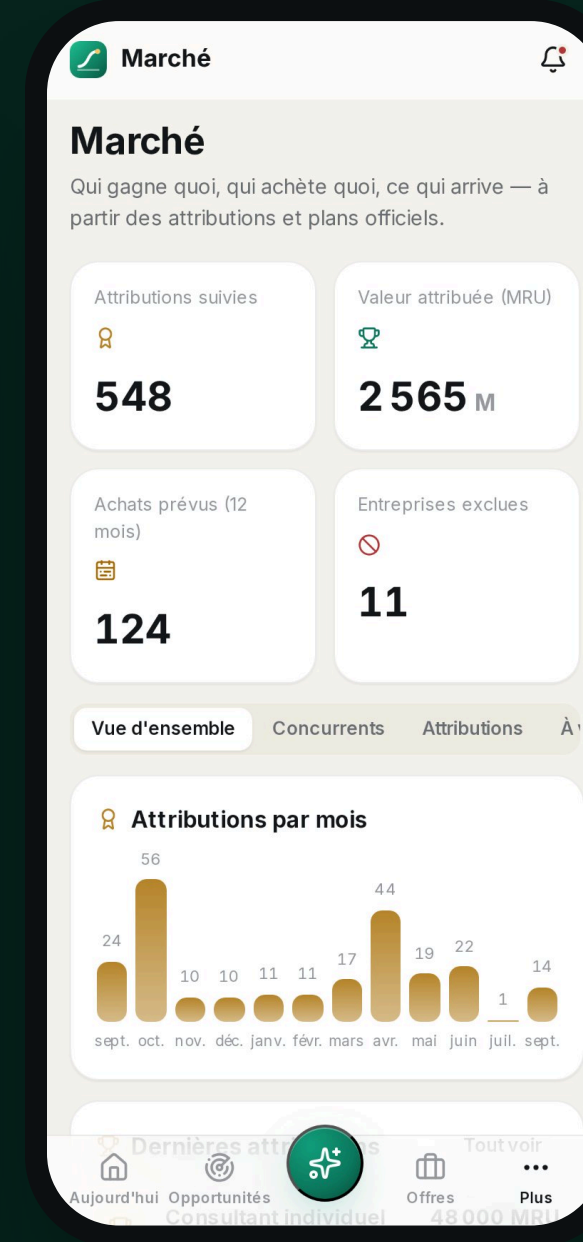

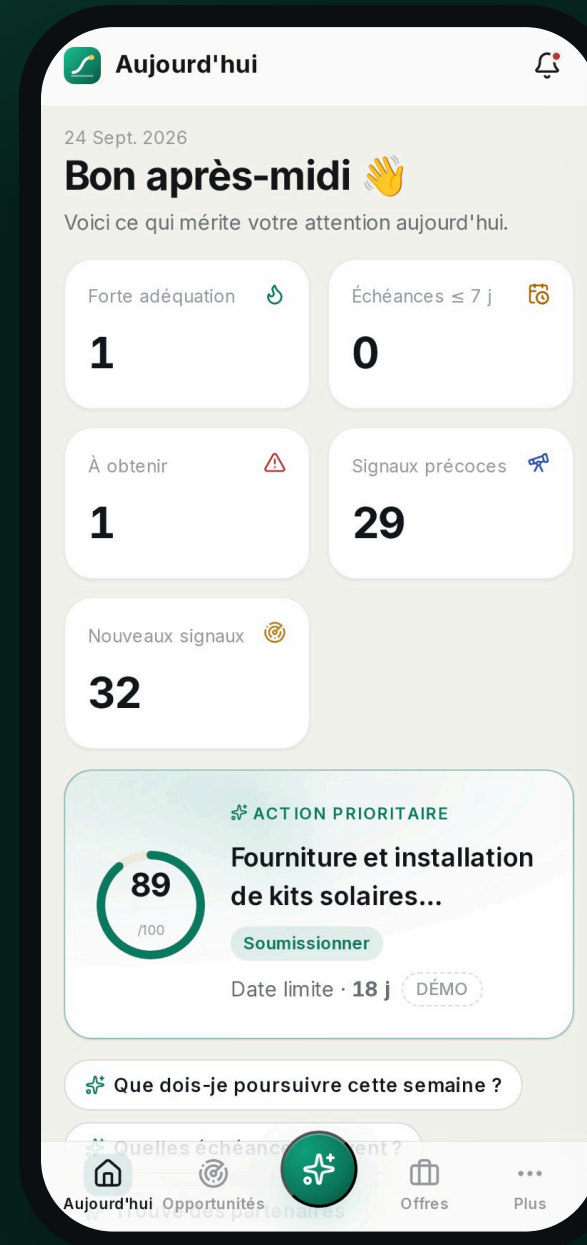

Calendar & WhatsApp

Google / Outlook export, one-tap sharing

EVERYWHERE

On your
computer, and
in your pocket.

- Android app
- Installable web app on iPhone
- Instant notifications
- Swipe-to-triage
- Dark mode

TRUST

Your data stays yours.

Strict isolation

each company is isolated at the database level.

Controlled hosting

on your server or a dedicated server, over HTTPS.

You decide

no submission, no buyer contact without your approval.

Governed AI

optional; confidential information never leaves without consent.

Sources cited

every fact links to the official notice; unknowns are shown as such.

Red list

built-in checks on partners and subcontractors.

WHO IT IS FOR

For companies bidding on public and donor-funded contracts.

Construction & works

Solar & electrical

Water & boreholes

IT & telecoms

Engineering & consulting

Supplies & equipment

Already bidding? FORSA helps you bid more often, on the right contracts, with complete files — and shows you the ones you were missing.
